Profile

Master's student in Analysis and Policy in Economics at the Paris School of Economics (PSE), with a strong background in applied economics, quantitative analysis, and empirical research. Experienced in working with economic data, conducting econometric analysis, applying causal inference methods, and using AI tools in research workflows. **Macroeconomics** is my primary field of interest, with a broad interest in empirical research questions spanning public policy, institutions, firms, markets, and economic policy. Interested in pursuing applied research where economic questions, quantitative methods, and policy-relevant issues intersect.

Education

- **Paris School of Economics** *Sept. 2025 – Present*
