RESEARCH INTERESTS

Master's student in Analysis and Policy in Economics at the Paris School of Economics (PSE), specializing in causal inference, applied econometrics, and quantitative policy evaluation. Research interests include institutions, macroeconomics, economic growth, and political economy, with a focus on evidence-based public policy and developing economies. Proficient in Python, R, and Stata.

EDUCATION

- Paris School of Economics** Sept. 2025 – Present
M.Sc. in Analysis and Policy in Economics (APE) Paris, France
- University Paris 1 Panthéon-Sorbonne** Sept. 2022 – June 2025
B.Sc. in Economics, Minor in Computer Science — Thesis grade: 18/20 Paris, France
- Médenine High School** 2022
Mathematics Baccalauréat — GPA: 18.60/20 — National Rank: 91st/6,482 Médenine, Tunisia

PUBLICATIONS

- What Would Saudi Arabia Look Like Without Vision 2030?** March 2026
Early Evidence from Synthetic Controls — doi:10.5281/zenodo.19210741
 - Applies the Synthetic Control Method to causally evaluate Saudi Arabia's Vision 2030 across four dimensions: female labor force participation, FDI inflows, international tourism, and services employment.
 - Results confirmed by placebo-in-space tests and permutation inference across a donor pool of structurally comparable resource-dependent economies.

PROFESSIONAL EXPERIENCE

- CY Cergy Paris Université** Jun. 2026 – Present
Research Assistant (Internship) Paris, France
 - Research Assistant under the supervision of (Mrs. Pamela Bombarda). Conducting research on the effects of robotization on informality and labor markets.
- Hôtel Antin Saint-Georges** (prev.: Hôtel Régence, Staffmatch) Mar. 2023 – Present
Night Auditor — Part-time alongside full-time studies Paris, France
 - Employment undertaken to ensure full financial independence throughout university studies.
- L1ECO+** Sept. 2023 – Jan. 2024
Mathematics and Statistics Tutor Paris, France
 - Tutored undergraduate students in calculus, probability, and statistics.
 - Supported quantitative reasoning and examination preparation.

SKILLS AND EXTRACURRICULAR ACTIVITIES

- Languages:** Arabic (native), French (fluent), English (fluent), German (basic knowledge)
- Programming:** Python, R, SQL, VBA
- Econometrics & Causal Inference:** Randomized Controlled Trials (RCT), Instrumental Variables, Difference-in-Differences, Regression Discontinuity, Synthetic Control Methods, panel data models, statistical inference
- Quantitative Analysis:** Empirical economic analysis, data cleaning, econometric modeling, interpretation of causal effects
- Research & Academic Tools:** L^AT_EX, academic writing, literature review, quantitative reporting
- Office & Data Visualization:** Excel, Word, PowerPoint
- Extracurricular Activities:** Following geopolitical affairs, football, reading in history, sociology, and politics (personal library of 200+ books)

ADDITIONAL TRAINING

- IMF Institute — Macroeconomic Diagnostics** January 2025
Online Course
- Chaire Grands Enjeux Stratégiques Contemporains** 2024 – 2025
Geopolitics and Global Strategic Policy Seminars
